

Open Letter to the People of Maw

In the last fifty years the sense of community in Mawr has been almost destroyed by overdevelopment and lack of industry, chronic vandalism, lack of control over monoglot immigration, remote government and closure of all its Welsh medium schools except for Felindre. Recently there has been a popular rising in Mawr against overdevelopment resulting in the resignation of the County Councillor, Ioan Richard, from the Community Council. As Armiger I call for his resignation from the County Council, which does nothing but harm to Mawr by refusing to respect the Welsh Language. About half the Community Councillors of Mawr resigned following furious popular objections to MA006. I think that Mawr should be designated a Bro Iaith, (Language Region), and an emergency effort made to save what remains of the Welsh language. I am full of praise for those families who struggle heroically to keep the language alive. The only way of doing this is to learn it, or better your knowledge of it and keep it within a Welsh speaking family. As a matter of interest I was born in this house as described in my autobiography on the home page of www.aias.us above my coat of arms and we never spoke English within the family, rarely outside the family. The level of culture in those days was far higher, there was a coal industry and essentially no crime. I worked on my father's smallholding doing manual labour from the age of about seven, and enjoyed it. One or two people may remember that part of my job as a boy was to drive cattle along Mountain Road. Unfortunately, when I returned from the States I found that the area had been destroyed by development. I earned everything in life, and was given no aristocratic favours. By now I have many honours and awards, all earned on merit. So I would like to encourage the young people of Mawr by example. At present my work reaches nearly all the countries of the world via www.aias.us and its blog, with the great help of international colleagues, a superbly efficient team, The Alpha Institute for Advanced Studies (www.aias.us, www.webarchive.org.uk, www.atomicprecision.com, www.upitec.org, www.et3m.net). This is an internationally recognized activity led from Mawr. The list of countries is exhilarating and in order of interest in my diary or blog it is currently as follows. The pen is mightier than the sword and unites all Nations.

Britain, USA, Canada, Germany, Brazil, France, Australia, India, Italy, Sweden, Spain, Netherlands, Switzerland, Saudi Arabia, Austria, Denmark, Poland, Portugal, Belgium, Ireland, Republic of Korea, Russian Federation, Japan, Norway, Philippines, Togo, Mexico, Finland, Argentina, Israel, Turkey, New Zealand, Pakistan, Romania, Singapore, Argentina, Israel, Turkey, New Zealand, Pakistan, Romania, Singapore, Greece, Czech Republic, Peru, Malaysia, Hungary, Serbia, South Africa, Chile, Thailand, Taiwan, Hong Kong, Indonesia, Ukraine, Nigeria, Bulgaria, Slovakia, Colombia, Croatia, Egypt, Slovenia, Tunisia, Sri Lanka, United Arab Emirates, Lithuania, Aland Islands, Luxembourg, Algeria, Albania, Guatemala, Venezuela, Ghana, Uruguay, Benin, Bosnia and Herzegovina, Latvia, Estonia, Cyprus, Bangladesh, Malta, Iceland, Iraq, Belarus, Cote d'Ivoire, Kenya, Viet Nam, Georgia, Morocco, Bahamas, Senegal, Mauritius, Dominican Republic, Macedonia, Kuwait, Jersey, Uganda, Zimbabwe, Ecuador, Oman, Costa Rica, Lao, Rwanda, Lebanon, Ethiopia, Mongolia, Jamaica, Qatar, Jordan, Azerbaijan, Trinidad and Tobago, San Marino, Puerto Rico, Guernsey, Cambodia, Maldives, Brunei, Isle of Man, Nepal, Guadeloupe, Dominica, Burkina Faso, Bolivia, Monaco, Palestine, Moldova, El Salvador, Cameroon, Syria, Barbados, Armenia, Bahrain, Nicaragua, Myanmar, Kazakhstan, Tanzania, Gambia, Aruba, Fiji, Liechtenstein, Yemen, Montenegro, Panama, Faroe Islands, Guam, Paraguay, Libya, Honduras, Namibia, Samoa, Botswana, Bermuda, Anguilla, Zambia, Sudan, Angola, St. Lucia, Afghanistan, Papua New Guinea, Gibraltar, Virgin Islands, New Caledonia, Cape Verde, Mauritania, China, Macao, Malawi, Turks and Caicos Islands, Cayman Islands, and Kyrgyzstan.

I was raised to Armiger in 2008 for distinguished voluntary service to science, and was included in "Burke's Peerage and Gentry" in 2012. So I earned the right to be among the untitled nobility of Wales (the Gentry) on merit. I am also descended from the Princes and Normans through the Old Families of Wales, but that was discovered only recently. I was appointed as Civil List Pensioner by the Prime Minister's Office in 2005. I am the youngest to have earned the Scientiae Doctor degree by modern rules, at the age of 27, a distinction higher than full professor, and I am a bard and poet in both languages. In the last decade my work has been read an estimated thirty million times around the world and is in the National Archives both sides of the Atlantic. All young people in Mawr can achieve the same, all they have to do is put their mind to it. It is their duty to help save the Welsh language from extinction, the oldest continuously spoken language in Europe. UNESCO has sent out urgent warnings about the state of the Welsh language so it must be taught to all in all schools. Prejudice against it is illegal and it is an official language of Britain, its oldest language by far. I give every encouragement to all young people who have been educated in our most beautiful language, a treasure given to us to keep, not throw away. Once it is gone, it is gone forever, and we are all much the poorer. Similarly for every language in the world, many of which become extinct every year.
