

The three world records that I hold at present are as follows.

- I) Most prestigious Fellowships in open competition at the ultra competitive post doctoral level. These are as follows.
  - 1) British Government Science Research Council Fellowship at Oxford (1974).
  - 2) Imperial Chemical Industries European Fellowship (1974).
  - 3) National Research Council of Canada Fellowship to work with the Nobel Laureate Herzberg (1974).
  - 4) Junior Research Fellowship of Wolfson College, Oxford (1975).
  - 5) British Ramsay Memorial Fellowship of University College London (1976).
  - 6) British Government Science and Engineering Research Council Advanced Fellowship, (1978).
  - 7) University of Wales Fellowship Bangor (1983).
  - 8) University of Wales Fellowship Swansea (1983).
  - 9) University of Wales Pilcher Senior Fellowship Swansea (1985).
  - 10) IBM Post Doctoral Fellowship (1985).
  - 11) Humboldt Foundation Fellowship (1985).
  - 12) Leverhulme Trust Fellowship (1985).
  - 13) Leverhulme Trust Fellowship (circa 1989 / 1990).
  - 14) Honorary Fellowship University of London Royal Holloway and Bedford New College 1987.
  - 15) Honorary Fellowship University of Lancaster 1987.
- II) Youngest Scientiae Doctor (D. Sc) under modern rules by about a decade or more. Thesis submitted at the age of 26, degree awarded at the age of 27. This is a distinction of the University of Wales higher than full professor.
- III) Most prolific author of papers and books in science, currently 1,638 books, reviews, papers, essays and essay broadcasts in English and translated into Spanish by Alex Hill. Read and heard by tens of millions as measured by computer feedback.
